Point of Sale (POS)
Custom Thermal & Ink Jet Products

Graphic Controls has a POS product that will fit your custom needs. Our printing capabilities allow for personalized Point of Sale rolls by adding company logos, return polities and security features. Our in house design team can help assist in many ways, from artwork development to product design. With a wide range of local warehousing and global distribution, you can rest assured knowing your product is just a few days away.

Quality & Innovation

Graphic Controls produces a full variety of high-quality paper rolls for Point of Sale use. Our paper rolls are manufactured to meet the highest standards in quality that are compatible with all point-of-sale printers. This reduces printing errors, and guarantees the best transaction performance and reduces overall cost of ownership.

Customer Service & Logistics

It's our job to make your job easier. That's why our sales and customer service teams take care of every detail. From regional warehousing to global distribution, you can rest assured knowing your product is just a few days away.

Security & Protective Packaging

With receipt fraud on the rise, we offer custom features to prevent counterfeiting on POS Rolls including Watermarks, Scallop Perforations, Coin Reactive and Thermo Chromic Inks.
